Helmet N/A Seatbelt/Child Restraint Yes Alcohol Related? No

CHARGES:

Investigation Ongoing.

Narrative:

V01 was westbound on CR-610, approaching a red signal at the intersection with Lockwood

Ridge. V02 was in the eastbound outside left turn lane of CR-610 at Lockwood Ridge. V03 was eastbound in the inside left turn lane of CR-610 at Lockwood Ridge. V04 was eastbound in the inside left turn lane of CR-610 at Lockwood Ridge. As V02, V03, and V04 were turning left in the intersection, V01 proceeded past the red signal and entered the intersection. The front right of V01 struck the rear right of V02, which rotated to final rest facing south in the outside northbound lane of Lockwood Ridge. V01 continued west and the front of V01 struck the right side of V03. V03 was redirected to the northwest, and both vehicles rotated clockwise as a single unit, until the rear left of V01 struck the front of V04. V04 came to rest in the area of collision, facing northeast within the intersection. V03 separated from V01 and came to final rest facing northeast in the outside westbound lane of CR-610. V01 came to final rest facing northwest within the intersection, just north of V04, and just east of V03. D01 fled the scene on foot, but was located and brought back to the scene.
